- **SELF STUDY:** - Are you a mom who cannot commit to regular meetings but wants to engage in critical thought and receive practical guidance as well as biblical encouragement in your homeschooling journey? Consider our self-study options, knowing that you can always add group mentoring or other services later. TBH Premier Membership is included for the first six months.
- **SEASONAL “CHAPTER CHATS” VIRTUAL GROUP MENTORING SESSIONS:** - These group sessions offered throughout the year bring that personal touch to the heart of *The Balanced Homeschooler* mentoring program. Conducted virtually, moms anywhere can connect in a way that is personal yet also logistically flexible to meet the realistic demands of daily life. It is truly mentoring without borders! Sessions are crafted just for moms to help work through the program topic by topic with plenty of “open discussion” sessions peppered throughout the year.
- **CUSTOM SESSIONS:** - This option enables moms to create their own group and arrange a customized group mentoring experience. This is a great choice for support group members who wish to experience mentoring together but do not wish to lead it. For pricing and availability options for facilitation, please contact Carol directly. Custom sessions require a three-mom minimum. The more moms who participate, the better the per-person pricing will be for each mom. Additional travel expenses apply for groups who wish to have all sessions conducted in-person rather than virtually after the first in-person session. Once you have settled the details with Carol, she will guide you through how to process your transaction via the website.
