- **SELF STUDY:** - Are you a mom who cannot commit to regular meetings but wants to engage in critical thought and receive practical guidance as well as biblical encouragement in your homeschooling journey? Consider our self-study options, knowing that you can always add group mentoring or other services later. TBH Premier Membership is included for the first six months. Confident leaders can also facilitate this option!
- **SEASONAL “CHAPTER CHATS” VIRTUAL GROUP MENTORING SESSIONS:** - These group sessions are offered throughout the year by request, bringing that personal touch to the heart of the mentoring program. Conducted virtually, moms anywhere can connect in a way that is personal yet also logistically flexible to meet the realistic demands of daily life. It is truly mentoring without borders! Included for TBH Premier members, sessions are crafted just for moms to help boost their topical journey through the program as well as “open discussion” sessions.
- **CUSTOM SESSIONS:** - This option enables moms to create their own group and arrange a customized group mentoring experience. This is a great choice for support group members who wish to experience mentoring together but do not wish to lead it. Custom sessions require a three-mom minimum, but the more moms who participate, the better the per-person pricing will be for each mom. Additional travel expenses apply for groups who wish to have sessions conducted in-person rather than virtually after the first in-person session. Contact Carol for pricing. See: “Core Levels >> Group Mentoring” for additional details.
